

## INTERNATIONAL FOUNDATION FOR ELECTORAL SYSTEMS

**Solicitation Number:** RFQ-24-007 (originally published as RFQ-24-005)

**Solicitation Title:** Equipment based on Cisco ACI and Cisco SD-Access Architectures

### Amendments:

This solicitation was published with no. RFQ-24-005. The correct number is **RFQ-24-007**. Please use the correct number when submitting your offer and any future correspondence.

### Questions and Answers:

Q1. The specification did not see Cisco ISE (ACI and SD-Access) and Cisco DNA Center Appliance (SD-Access) solutions required for both. Please clarify, do these solutions already exist or do the specifications need to be supplemented?

***IFES Response:** The specifications listed in the RFQ document are comprehensive and fully cover the CEC request on CISCO ACI. The CISCO DNA and SD-Access are deployed in the CEC.*

Q2. In order to receive price quotations from the manufacturer and participate in the tender on a competitive basis, it is necessary to fill in the questionnaires of the manufacturer related to the subject of procurement. In this regard, please provide information about the final beneficiary/ recipient/ customer:

Full name of the customer

Settlement where the object is located

Legal address of the customer

Customer's website

Contact person at the customer and his/her coordinates

FULL NAME position

e-mail

phone number

Address where the equipment will be installed

***IFES Response:** All initial details regarding the end-user are outlined in the RFQ document. Further specific information will be negotiated with the successful bidder to ensure the precise execution of the contract.*
