Call for Concept Papers (CCP) for Voter Education Innovation Grant Competition in Nigeria

Partial Re-issue
(Only for North East, North West and South West Geopolitical Zones of Nigeria)

June 17, 2022
1. Call for Concept Papers

1.1. Purpose
The purpose of this partially re-issued Call for Concept Papers (CCP) is to invite eligible Nigerian organization(s) to submit a detailed concept for a project that will pilot an innovative voter education initiative in one of three geopolitical zones of Nigeria: North East, North West and South West. This CCP provides prospective organizations with the relevant operational and performance requirements for the concept paper process. IFES will subsequently invite the organizations with the strongest concepts from each geopolitical zone to participate in a full Request for Applications (RFA) process that includes a presentation-based, “Dragon’s Den”-style competition. IFES anticipates issuing a total of six awards at the end of this two-stage process – one voter education grant for each of Nigeria’s geo-political zones.

1.2. Call for Concept Papers
IFES will conduct a competitive process to identify grantees per the tentative timeline below:

2. General Information

2.1. Background
Since 1998, the International Foundation for Electoral Systems (IFES) has worked to strengthen the capacity of Nigerian election management bodies to promote credible, inclusive and transparent national, and local elections. Currently, IFES is providing capacity building to the Independent National Electoral Commission (INEC), incorporating lessons learned from the 2019 election process in electoral management, inclusion of traditionally marginalized groups, voter education, electoral conflict monitoring and alternative dispute resolution processes, among many others. IFES provides this assistance through its “Supporting Electoral Accountability and Transparency (SEAT)” project funded by the United States Agency for International Development (USAID) and the Foreign Commonwealth Development Office (FCDO).

As the number of eligible voters continue to increase in Nigeria, voter education becomes more crucial in the activities of INEC. Such activities include developing innovative approaches to ensure that citizens are well informed about how to participate fully in elections. IFES in collaboration with INEC is developing strategies to provide comprehensive information on a variety of electoral activities such as voter registration, polling and counting procedures during elections, responsibilities of political parties, rights, duties and responsibilities of voters, as well as anti-violence campaigns.

In coordination with INEC, IFES will host a public voter education ‘Dragon’s Den’ competition for Nigerian civil society organizations (CSOs), community based organizations (CBOs) and faith-based organizations (FBOs) to pitch innovative proposals for effective and inclusive voter education campaigns. Participating organizations will make a proposal pitch for their concept, with the potential to win grant funding and capacity building on best practices in voter education, grant management, use of new media techniques and platforms for enhanced message dissemination. CEPPS/IFES will
prioritize the selection of innovative voter education campaign concepts that substantively address effective outreach to women, youth, persons with disabilities and/or internally displaced persons.
