## Simple Ballot for February Election

n contrast with last year's general election, voters in the upcoming February 28 Election will receive a simple ballot, with only city and Aldermanic offices to be filled.

The February 28 Election is a Municipal Primary and a non-partisan Aldermanic Election. There are only three city offices to be nominated — that of Mayor, City Clerk, and City Treasurer.

Voters should be instructed to vote for only one candidate for any of the three city offices, and only one candidate for alderman. In some wards, where candidates have withdrawn or been removed by the Electoral Board, there will be a line or lines that simply state "no candidate." Even though there are some wards with as many as 12 aldermanic candidates, voters should only cast a ballot for one candidate.

In the Republican Primary for Mayor, three candidates have dropped off the ballot and have been replaced with "no candidate" lines.

Because of the simplicity of the February 28 ballot, the voting process will be fast and simple. Thus, there should be no back up of voters in the polling place, even during peak voting hours.

Board of Election Commissioners for the City of Chicago

Michael J. Hamblett, Chairman Arnette R. Hubbard, Commissioner, Secretary Richard A. Cowen, Commissioner

Executive Director, Lance Gough

## Pre-Printed Applications Make Voting Easier

hicago voters will again be given a pre-printed Application for Ballot at both the February and April elections.

The pre-printed applications expedite the voting process since the voter's name and address is pre-printed on the application. There is also a more accurate and legible record of who applied for ballots, thereby eliminating the problem of illegible handwriting or printing on ballot application.

And with the pre-printed ballot applications, the voting records can be scanned by a computer to obtain the voter history.

During voting hours, the judges at Station 2 ask each voter his or her name. One judge then locates the voter's pre-printed application in the blue spindled "Applications for Ballot" pad, which is organized in alphabetical order. The judge tears the application out and the voter verifies name and address and signs in the box. The judge initials the application, after signature verification.

If there is no pre-printed application in the pad, the judge issues the voter a blank application from the back of the pad.

At Station 3, the election judge must number the application, after the proper ballot card has been issued to the voter. The numbered preprinted applications are then spindled on the white pad labeled "Used Applications for Ballot."

If a voter spoils the pre-printed application, the voter must complete a blank application and the judges will attach the pre-printed application to the blank completed form.

Each blue absentee ballot application should also be attached to the voter's pre-printed application, if available.

All used pre-printed Applications for Ballot on the white spindle, must be returned to the receiving station with other required items on election night. The blue spindle containing unused applications must be left in the carrier at the polling place.

Arrive at the polling place by 5:15 a.m. Don't be late!

If you do not have transportation to the Receiving Station, call Election Central, 269-7870, for assistance.

Volunteers Register 104,000

nce again, the volunteer deputy registrar program has proven to be the most effective means of recruiting new voters. For the February 28th Municipal Primary and Aldermanic Election, the volunteer deputy program produced more than 104,000 voter registrations out of a total of approximately 116,000 taken since the November 8, 1994 General Election.

There are approximately 8,500 volunteer registrars in the city of Chicago qualified to take

voter registrations. Some of the volunteers have been quite active, while others have taken few registrations. This activity is reflected in the ward by ward registrations produced since the last general election (see chart at right).

Although voter registration has closed for the February 28th Election, registration will open for a short window between March 1 through March 7 to qualify new voters for the April 4 Municipal Election.

## Cowen Appointed to Board

ichard A. Cowen (second from right) is shown being sworn in as a member of the Chicago Board of Election Commissioners by Chief Judge Donald P. O'Connell during ceremonies in the Richard J. Daley Center. Witnessing the oath of office being administered are Cowen's fellow Commissioners - Arnette R. Hubbard (left) and Chairman Michael J. Hamblet (right).

Cowen, appointed to a three year term,

becomes the Republican member of the Election Board, replacing Commissioner Chris Robling.

Commissioner Cowen, an attorney, has 15 vears electoral experience as a former member and Chairman of the Illinois Electoral Board; and has represented numerous candidates and objectors in electoral board hearings. He also has served as a hearing officer for the Chicago Election Board.
