Call for Concept Papers (CCP) for Voter Education Innovation Grant Competition in Nigeria

Questions and Answers

June 9, 2022

1. Will the implementation be in each of the States in a particular Geo-political zone or one can select 2-3 states within his or her Geo-political zone to implement?

IFES Response: The expectation of the Voter Education grant is to make a significant impact on spurring citizens nationally to engage fully in the electoral process; hence, our selection of organizations by geopolitical zones. However, interested organizations can therefore fully implement in minimum of 3 states in a particular zone. Applicant must clearly outline the rationale behind selection of states within the geopolitical zone.
