## **International Foundation for Electoral Systems (IFES)**

### **RFQ/17/022 – Solicitation for Purchase, Delivery and Installation of Battery Bank in Liberia**

#### **Questions & Answers (Q&A)**

**November 29, 2016**

**Q1. What are the power needs?**

**IFES:** The battery bank is for the National Election Commission (NEC) power breakdown; 2,417 watts per server rack (3 server racks) plus CCTV system 1,400 watts. Total load: 8,651 watts.

**Q2. What is the length of time required (back-up time frame)?**

**IFES:** 24 hours' backup power at 100% capacity, it means whenever the main power goes off, the power bank will kick in. It may last for the longest capacity.

**Q4. Are we to provide such information prior or is it available for our perusal?**

**IFES:** The question is not clear.
