4. Scope of Work

Under the Participation of Women in Elections and Registration (POWER) program, which is carried out with funding from Global Affairs Canada, the International Foundation for Electoral Systems (IFES) seeks one or two subaward partners to implement two primary activities, namely: 1) a series of women’s leadership trainings (She Leads Pakistan), and 2) women’s NIC voter registration campaigns in Sindh. The period of performance is approximately 4-5 months for the She Leads programming and about 10 months for the NIC voter registration campaigns. During that time, the selected partner(s) will be responsible for completing the following activities under each respective scope. Although not required, IFES strongly encourages interested organizations to consider submitting an application covering both scopes.

Scope of Work – She Leads Pakistan

Under the Participation of Women in Elections and Registration (POWER) program, which is carried out with funding from Global Affairs Canada, the International Foundation for Electoral Systems (IFES) seeks an organization to implement a series of women’s leadership trainings (She Leads Pakistan) in Sindh Province. She Leads is IFES’ flagship women’s leadership training course, designed and tested by IFES, to help women become effective leaders and contribute to empowering women and enhancing women’s democratic participation.
Due to the ongoing COVID-19 pandemic, the She Leads Pakistan trainings will be delivered using online platforms, avoiding in-person contact based on the current health regulations and standard operating procedures (SoPs) provided by the Government of Pakistan. IFES has developed and contextualized the training curriculum for an online platform, which will be made available to the selected partner upon awarding of contract.

She Leads Pakistan will consist of two online modules (beginners and intermediate), each of which will be implemented over a three-week period (three time per week) with a gap of six weeks in between modules. The partner is expected to implement approximately 6 beginner training modules and 6 intermediate training modules to reach a total of 100 women, each of whom goes through the beginner and intermediate training. At the end of the beginner module training, participants will put the acquired knowledge and skills into action by way of developing individual action plans for implementing four to six weeklong ‘assignments’. The assignments will focus on community volunteer work targeting the various communities and women in Sindh, such as women NIC/voter registration, voter education, health etc. The intermediate module training will focus on consolidating the key learnings of the participants and firm up the skills and knowledge so that the She Leads alumnae can continue to work towards being effective leaders in their communities and districts. The period of performance for the She Leads program is approximately 4-5 months.

The selected partner will be responsible for completing the following activities:

- Select 3-4 districts in Sindh province for implementation of She Leads Pakistan training program based on availability of internet infrastructure/services for efficient delivery of an online training program. The target districts will be finalized in consultation with IFES. (Proposed districts are Karachi-east, Sujawal, Tando Mohammad Khan and Shaheed Benazir Abad.)
- Identify and select She Leads participants, a total of 100 women in selected districts, using established selection guidelines. The same participants will attend both the Beginner and Intermediate trainings.
- Engage Master Trainers. IFES will arrange for training of the trainers for conducting She Lead Beginner and Intermediate trainings.
- Implement four-day Beginner trainings for She Leads participants, with approximately 15 participants in each training to reach a total of 100 women through 6 to 7 trainings.
- Oversee and facilitate the implementation of She Leads alumnae’s Action Plan assignments and keep track of participants’ progress in meeting their goals.
- Implement four-day Intermediate trainings for She Leads participants, with approximately 15 participants in each training i.e. in a total of 6-7 batches.
- Implement a 2-3 hours session with Male Allies, reaching a maximum of 25 males who will be selected and trained to work together and support She Leads Pakistan participants. Selection of Male Allies will be done in coordination with the implementing partner and in consultation with IFES.
- Provide a complete set of implementation documentation, in hard copy and using Google forms, including trainees’ profiles, trainer profiles, action plans, training records like attendance sheets, pre post tests, training feedback forms etc., reporting templates as agreed with IFES.
- Report progress and conduct monitoring and evaluation – in a format agreed to with IFES – throughout the program to measure progress and impact.
Scope of Work – Women NIC/Voter Registration

One of the prime objectives of IFES’ project in Pakistan is to supplement efforts of the Election Commission of Pakistan (ECP) to eliminate barriers to voter registration and subsequently reduce the gap between male and female voters on the electoral rolls. The latest electoral rolls indicate a gap of around 12.5 million fewer women than men. To help close this gap, IFES is seeking a partner to help implement a set of activities for identification and facilitation of 35,000 unregistered women to acquire National Identity Cards (NIC) in Sindh province. The maximum duration of the project will be 10 months.

The selected partner will be responsible for completing the following activities:

- Complete review and selection of districts for implementing NIC related activities, based on the number of unregistered women in the districts currently and review of other organizations working on the same objectives in the selected districts. Based on this review, the partner will set a target for women NIC/voter registration for each district. This will be finalized in consultation with the IFES team upon signing of the contract.

- Identify and finalize list of census blocks for each selected district, in consultation with IFES. The list of census blocks can only be altered with written approval from IFES.

- Coordinate with the ECP and NADRA at the respective district, regional and provincial level for effective implementation of project activities, such as finalization of census blocks and target number of unregistered women etc.

- Submit profiles of all staff members responsible for implementation of the process of identification, listing and facilitation of unregistered women

- Carry out social mobilization activities to identify and list unregistered women in the target areas, using the prescribed formats

- Enter data of the un-registered women in the excel/database formats provided by IFES

- Verify the listing data using two level verification exercise – 100% verification of the listed women by the District Coordinators and 5% verification by the Project Manager

- Submit listing data of un-registered women with results of two-level verification to IFES on the prescribed formats

- Hold meetings with respective DECs and share the lists of identified women and coordinate with NADRA to arrange for registration of listed women

- Facilitate the listed women for NIC registration through NADRA Registration Centers (NRCs) or Mobile Registration Vans (MRVs). The registration token issued by NADRA will be submitted as evidence of the facilitation provided to the unregistered women identified under this project, against the complete track record of individual women, on the prescribed format.

- Submit regular progress updates on weekly, monthly basis on the progress reporting formats as prescribed.

- Submit complete records of the implementation process – all records will have to be submitted within a maximum seven days of implementing any process step i.e. listing by Social
Mobilizer, verification by DC, verification by PM, facilitation – IFES will provide formats for recording information at every process step

All deliverables should be in English.

4.1. Timeline:
Applicants must submit a detailed timeline in their Application showing the time required to implement the services requested. IFES requires all deliverables to be completed not later than May 31, 2021.

4.2. Monitoring & Evaluation

If Applicable, applicants must ensure that funds are included in the grant budget for an audit.
