#### Questions and Answers

**December 28, 2021**

**Q1.** “My question is regarding Attachment D - ACT partners indicators. In the attached document that was emailed to me, the Excel sheet has already been filled. I'm wondering if these are just examples that we are meant to delete and replace with our own indicators, or are we meant to add on to them?”

IFES Reponses: Attachment D is for reference while you are planning activities in the narrative and budget. These are the program goals and monitoring targets we would like ACT partners to plan to meet. You do not need to add to or submit anything related to attachment D with your application, but we recommend reviewing it to understand the scope needed for the project activities and budgeting. However, if you have suggested additional indicators to add you can send a revised version of attachment D (the performance management plan) with your application **although this is not required and will not affect your application's competitiveness.**
